Brookline Precinct Profiles

Precinct 1

Introduction

The Brookline Precinct Profiles, otherwise known as, "Where in the World is Your Precinct?" were conceived by the Brookline Town Meeting Members Association (TMMA). The profiles have been developed for two purposes: First, to ensure that precinct residents have a resource to refer to when seeking information about their precinct; Second, for Town residents in other precincts and other people interested in learning more about a particular precinct.

Precinct 1 Narrative

◆ *Precinct Boundary*

Precinct 1 is located in north east Brookline adjacent to Brookline precincts 2 and 3. It is bounded on the north by Commonwealth Avenue; on the east by St. Mary's Street; on the south by the City of Boston and Longwood Avenue; and on the west by Kent Street and St. Paul Street.

◆ *Precinct 1 History*

Precinct 1 encompasses the very core of the Longwood and Cottage Farm suburban developments of the mid 19th century. Boston merchant, David Sears, bought most of this area beginning in the 1820s. Naming it Longwood after a home of Napoleon, he designed a series of lots around squares and eventually imported over 15,000 trees. These include Mason Square, Winthrop Square, Knyvet Square and the Longwood Mall, with its magnificent copper beech trees. Members of the family gave these squares to the Town in 1903. Sears gave each of his children lots and built a house for them: Ellen D'Hauteville, Harriet Crowninshield, Anna Amory, Grace Rives, David Sears, Jr., and Frederick Sears. The only extant Sears family house is that of

Frederick at 24 Cottage Farm Road. Sears also built the Sears Chapel as part of this development. Amos A. Lawrence and his brother William bought up the southern section of the Sears land in the 1850s. Amos Lawrence's house still remains at 135 Ivy Street. Lawrence also built many houses for his friends and family that are scattered throughout this area. Hall's Pond sits at the edge of the Amory property. Minna Hall and her friend Harriet Lawrence played near the pond. As adults, these two women founded the Massachusetts Audubon Society.

This area is punctuated by three transportation routes (the train lines): one near the Boston University Bridge; Brookline Village spur that was originally part of the Boston & Worcester railroad and became the D line post WWII; and the Beacon Street trolley established by Whitney in the late 1880s. The building of the Milldam and the construction of Beacon Street, a county way, in 1850 made this area more accessible. In the Longwood area, the Muddy River was improved and blossomed into the Emerald Necklace, designed by Frederick Law Olmsted in the 1880s and 90s.

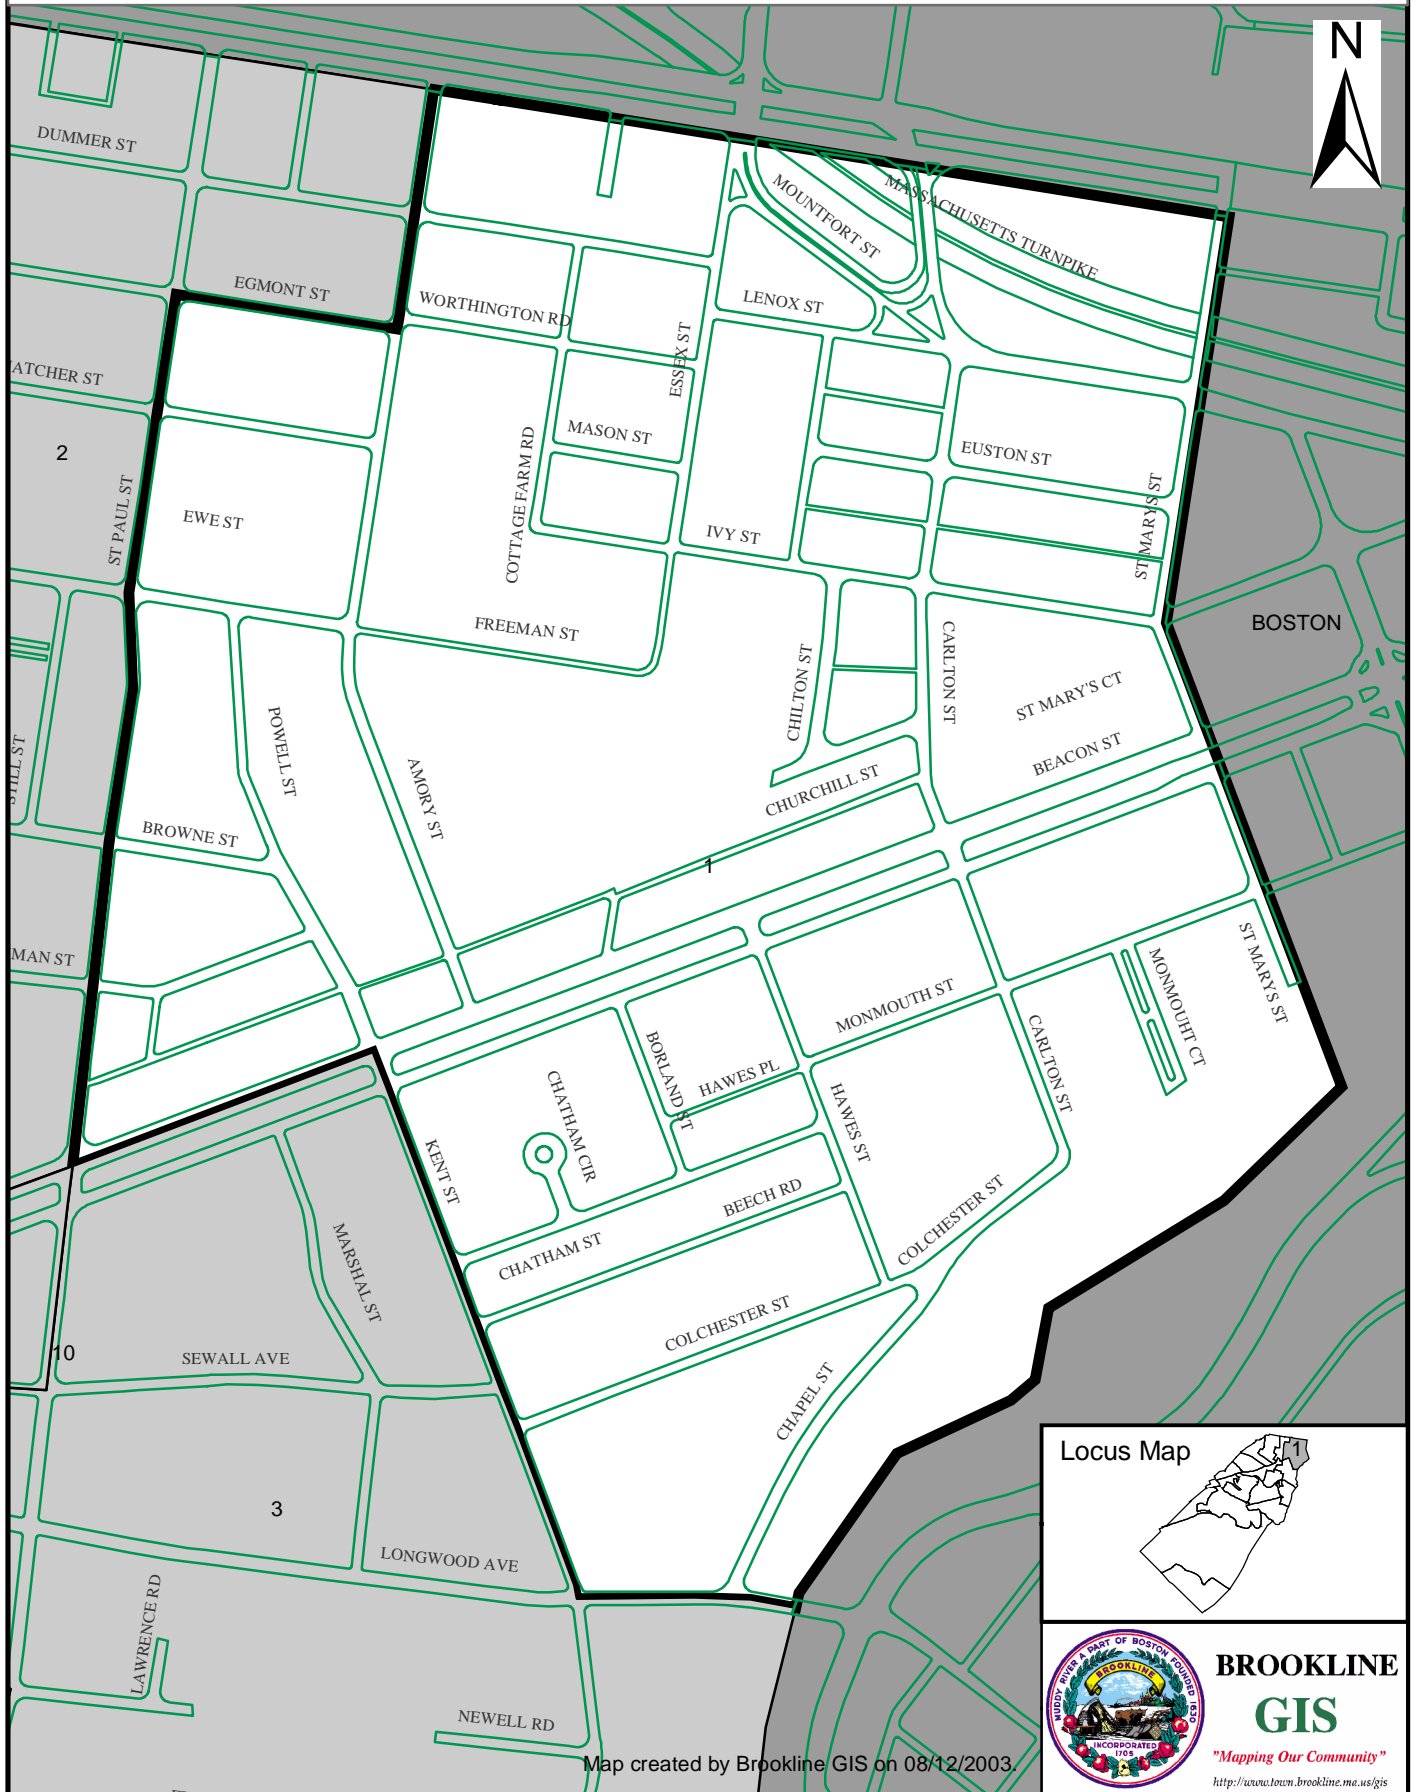

The widening of Beacon Street and the coming of the trolley led to another building spurt at the turn-of-the century. Many residences as well as apartment blocks and town houses were constructed. Another wave of building in the 1920s and 1930s filled in the area with Tudor, Colonial and Classic style houses, as well as an early International Style house on Chilton Street and the Medieval Revival apartment complex at Longwood Towers.

◆ *Precinct 1 Today*

Precinct 1 contains 179 acres or 7,798,229 square feet of land area. This precinct is typified by single-family homes on small lots (7000 square feet) and a moderate amount of multi-family residential. The precinct also contains approximately ten percent of land area taken up by residential parcels with from 2 to 8 units. While occupying a small percentage of total land area, renter-occupants in Precinct 1 multi-family residential make up nearly two-thirds of the precinct's housing stock. Finally, Precinct 1 contains a nominal amount of retail and other commercial uses.

As noted, the predominant land-use pattern in Precinct 1 is single-family residential which makes up over 60 percent of the zoned land and almost 50 percent of the total land area of the precinct. Precinct 1's center of activity is Beacon Street which serve as its primary activity corridor. Precinct 1 contains almost 27 acres of public recreation and open space, primarily in the Riverway and the Hall's Pond and Amory Woods sanctuaries. Town owned land takes up more than 13 percent of the precinct. Houses of worship in or near the precinct include the Christ Church, Episcopal Church at Boston University, Church of Our Savior, and the First Spiritual Temple.

(Additional regulations are contained in the text of Article 5.00)

**Maximum 7 stories

**Required Lot Frontage: 25' in S and SC districts
20' in all other districts**

FOOTNOTES:

1. If the entrance to a garage or covered vehicular passageway faces toward the street to which its driveway has access, said entrance shall be at least 20 feet from the street lot line.
2. At the end of each row or block of one-family attached dwellings, a yard shall be provided along the street line or side lot line of at least ten feet plus one foot for each dwelling unit in excess of two. In T districts, see also §5.48. In M districts, a building subject to the side yard formula:

$$10 + \frac{L}{10}$$

may be built to the side lot line: (a) as a matter of right if, on the adjoining lot, a principal building with no setback from that lot line already exists or is proposed to be built concurrently; (b) by special permit if the Board of Appeals finds that reasonable development of the lot necessitates building to the side lot line, such action does not unreasonably infringe upon the light and air of any existing adjoining building, and the party wall is solid and has neither doors nor windows. A building with

no side yard shall not have a building wall on the side lot line extending more than 70 feet to the rear of the front yard required by this By-law; except that a building wall may be located along any part of a side lot line on which a principal building on the adjoining lot abuts between the rear yard required by this By-law and the required front yard line. Where building walls more than 70 feet to the rear of the required front yard are not permitted to be built along the side lot line, said walls shall have a side yard setback not less than:

$$10 + \frac{L}{10}$$

the "L" dimension being that portion of the wall required to be set back from the side lot line.

3. L is the length of a wall parallel (or within 45 degrees of parallel) to the lot line, measured parallel to the lot line, subject to the provisions of [§5.41](#) for buildings of uneven alignment or height. H is the height, measured as provided in [§5.30](#), of that part of the building for which the setback or yard is to be calculated.
4. Automotive uses are subject to the requirements of [§§ 6.30](#) and [6.40](#).
5. See [§5.07](#), Dwelling in Business and Industrial Districts.
6. See [§5.54](#), Exception for Existing Alignment.
7. See [§5.64](#), Side Yards for Non-Dwelling Uses in Business or Industrial Districts.
8. See [§5.73](#), Rear Yard in Business or Industrial Districts.
9. Where two different maximum height figures are specified with a hyphen for the same use in one zoning district, the lower figures shall apply to any lot or part of a lot located in a buffer area as defined by [§5.31, paragraph 3](#). Where a height figure is followed by a zoning district designation as defined in [§3.02](#), that figure shall be the maximum allowable height in that category for that particular district.
10. The setback requirements for other dwelling structures in any of the S and T districts shall be the most restrictive setbacks required for the dwellings permitted in the districts, but the side yard setback shall be no less than 10 feet in any case.
11. PBI (Public Benefit Incentives) for floor area ratio and height may be granted only if the requirements of [§5.21](#) and [§5.32](#) respectively are satisfied. B represents buffer area and NB nonbuffer area regulations. Further, projects shall also be subject to any design guidelines adopted by the Planning Board.
12. Where any land in a G-2.0 Districts abuts a public street opposite any land in an S district, any building in the G-2.0 District shall be set back a minimum 20 feet from the street lot line facing the S district and the setback area shall be landscaped and not be used to provide parking.
13. See [§5.91](#), Minimum Usable Open Space, for open space requirements for residential use with more dwelling units than are permitted as of right in that district.
14. For life care facilities in S-25 districts, the Board of Appeals may allow by special permit an FAR up to 0.3, where appropriate public benefits are provided, such as listed in [§5.21, paragraph 1](#).
15. For dwelling subject to [§5.11, paragraphs 2 and 3](#), the allowed floor area ratio maximum shall be the same as for 1-family detached dwellings subject to [§5.11, paragraph 1](#) in the relevant zoning district.
16. In the G-1.75 (LSH) Limited Service Hotel District, for Use 8A, Limited Service Hotel, the following dimensional requirements are allowed: Floor Area Ratio Maximum of 3.30; Height Maximum of 90 Feet and 8 stories above grade; and Minimum Rear Yard – None.

DATA SOURCES

GREENWAYS: Brookline Conservation Commission

Open Space: Brookline GIS, 3/97. Developed in house by Brookline GIS staff with the help of the Conservation Commission. Based upon the Boston Edison street network, parcels data layer. Attribute information derived from the 'OPEN SPACE IN BROOKLINE' publication by the Conservation Commission.

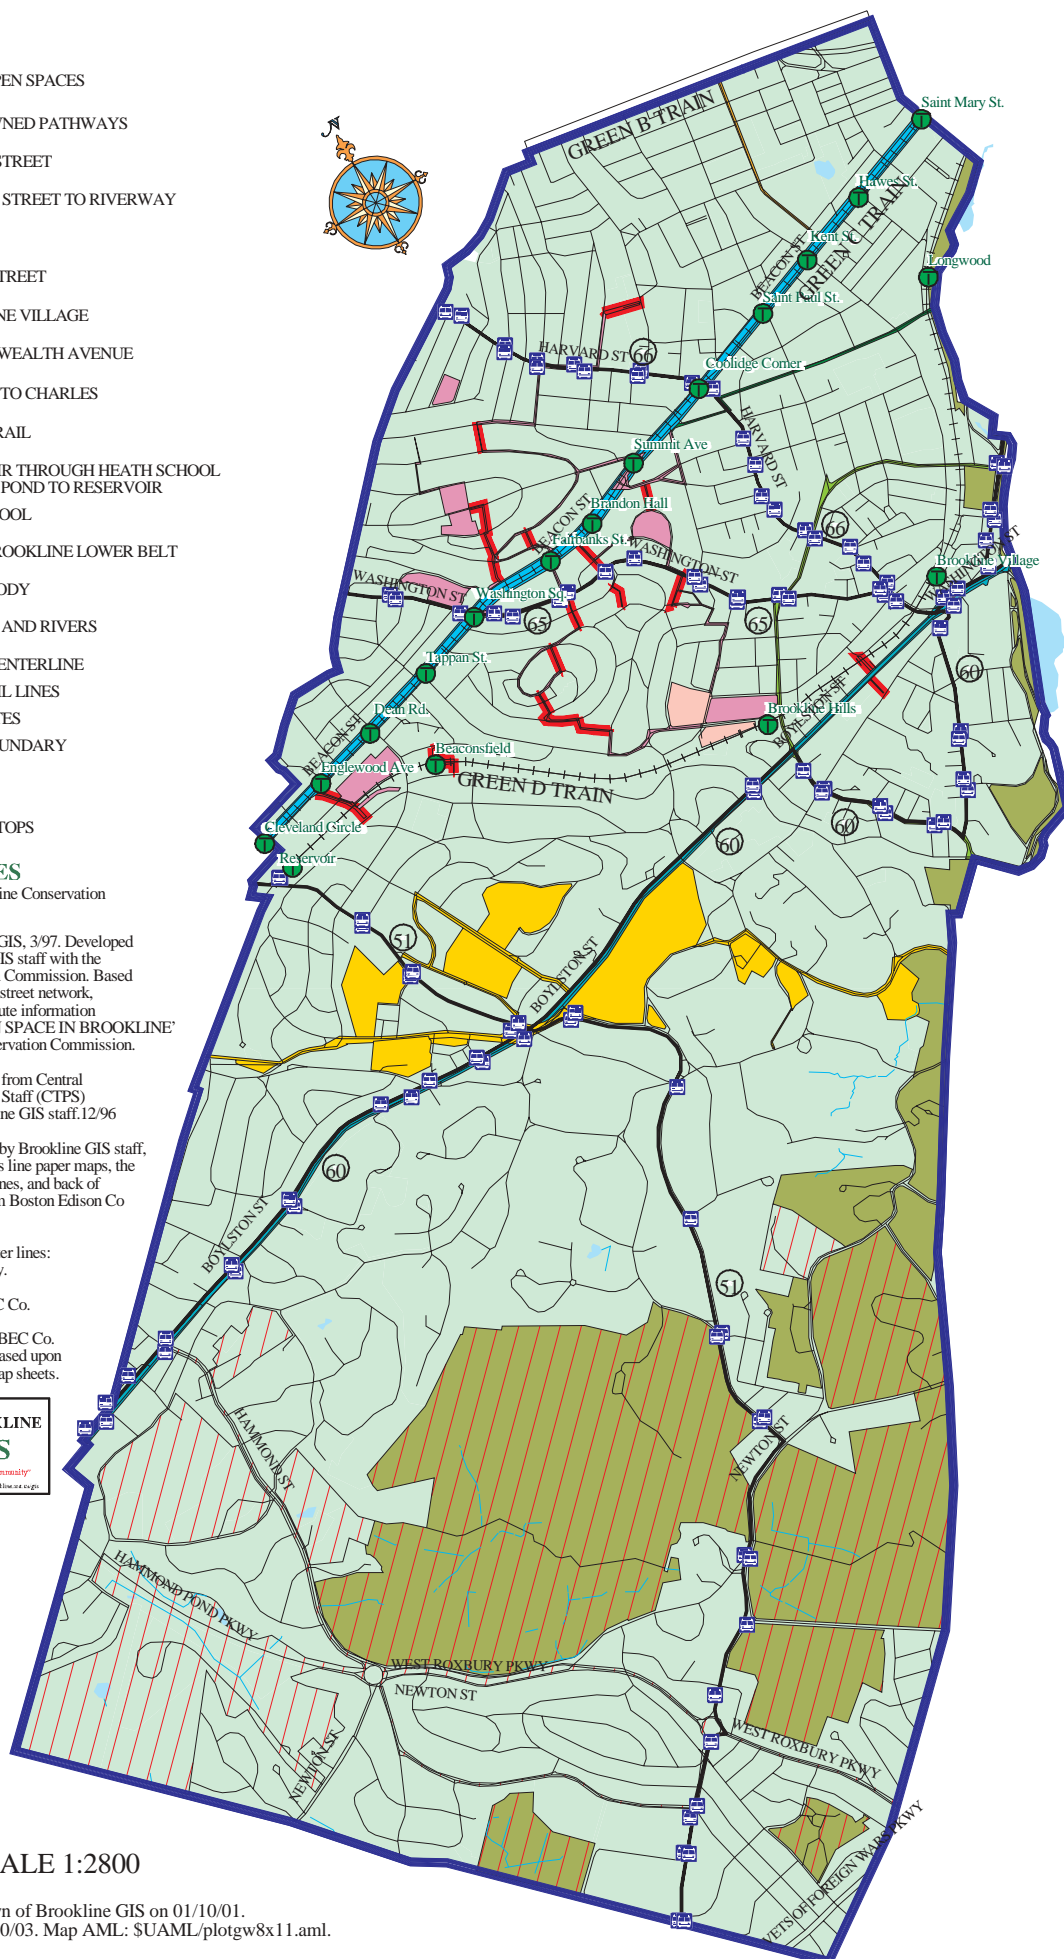

MBTA Lines: Obtained from Central Transportation Planning Staff (CTPS) and modified by Brookline GIS staff. 12/96

Bus Routes: Developed by Brookline GIS staff, based upon MBTA's bus line paper maps, the street edges, centerlines, and back of sidewalks base data from Boston Edison Co 08/97.

Street Edges, Street Center lines: Boston Edison Company.

WATER BODIES: BEC Co.

TOWN BOUNDARY: BEC Co.
Updated by CDM Inc. based upon Brookline Assessor's map sheets.

MAP SCALE 1:2800
